HOW WE WORK

From first study to deal close

FIRST STUDY — DEAL CLOSE

Models can be combined: we shape scope and fees around each client's needs.

01

Targeted studies

A decision-ready answer on a site or a specific issue.

- SST site report · sample
- Connectivity and latency · sample
- Grid capacity and the ONS interconnection queue
- EVTL (technical and legal feasibility study)

PER SITE · FIXED SCOPE

02

Advisory

Ongoing advisory, side by side with the client.

- Site selection and due diligence
- Power and grid interconnection
- Permitting
- Market intelligence
- Commercial structuring

FIXED SCOPE OR RETAINER

03

Development

Land, interconnection and permits through RTB.

- Owner's advisory: due diligence, interconnection, permits and structuring
- Co-development: CMP takes the project to RTB as an equity partner
